### We LIVE in the rehearsal!

Whether a chorus, quartet or ensemble, regular, well planned and well executed rehearsals are the best investment you can make in your future and the future of each other.

**Directors** play a critical role in the success of their choruses... much of that through their effectiveness as rehearsal planners.

**Quartet singers** can make a similar impact by grasping the opportunity that is the rehearsal environment, and making it an experience that is rich in learning, sharing, laughter and lots of love. And birthday cake, of course.

**Chorus singers** are not bystanders in the rehearsal world. Their engagement and commitment to the rehearsal principles make every goal seem possible, every dream within reach. And every chord seem to be absolutely, perfectly tuned.
