

## Great Lakes Harmony Region 17 January 2023 Harmony Weekend Covid Protocols

The Region 17 COVID Task Force has determined the following protocols for this weekend in which we will follow the most recent Sweet Adelines International Protocols. Please follow this link for this information:

<https://sweetadelines.com/health-safety-protocols>

The exception to this document is that Region 17 will not be using an outside service for Covid testing. We are requiring everyone to bring their vaccination card or negative antigen test to the registration desk to be checked. Once you have checked in, you will receive your badge. There will not be any testing kits onsite. All testing must be completed at home before arriving.

### **In summary:**

- a. Vaccinations and boosters are recommended, but not mandatory. It is recommended but not mandatory that all vaccinated members test on the day of the event for further safety precautions.
- b. Non-vaccinated members **must** test the day of the event.
- c. Masking recommended, but not required

These protocols are being put in place to minimize risks to the health of our members, family and friends, while maintaining an environment conducive to learning, singing and socializing. If you do not feel well or have tested positive, please do not attend this event.

If you have any questions, please reach out to anyone on the Task Force.

Thank you
